Electrical certifications for high voltage electrical operations: worker, work supervisor, lock and tag manager.

Fictis Prévention offers an e-learning solution tailored to your employees who have to perform high voltage electrical operations.

Audience

This e-learning module is intended for the personnel working on high voltage electrical structures.

Prerequisite: having completed the module “Preparation for the electrical certifications of the personnel performing low voltage electrical operations”.

Usage

The theoretical track offers a flexible and complete tool ahead of the practical training.

Train your learners via:

- the e-learning platform supplied by Fictis Prévention;
- your e-learning platform.

Customisation of the module

This module can be customised in both substance and form.

We can integrate:

- your instructions;
- your graphical charter.

Related products

This product is also available on USB key.
