TRAINING MATERIAL  
**E-LEARNING**

## General

- **Material:** E-learning

- **Duration:** 5H30 maximum (\*)

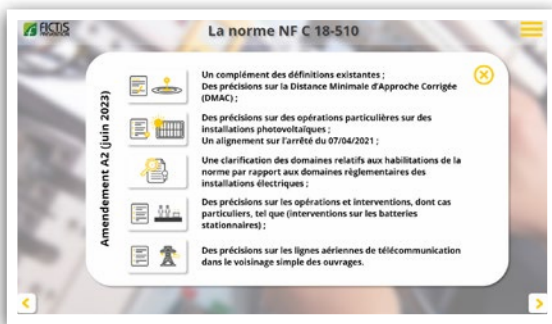

- **Fees:** Consult us

**For further informations:**  
**+33 241.20.06.20**

(\*): depending on how it is used and the trainee's profile.

Obtaining BE Procedure / BS / HE electrical clearance is not just a regulatory requirement not just a regulatory requirement, but a real responsibility towards yourself, your employees and their working environments.

By involving your employees in this training process training process, you are actively contributing to a culture of safety in the electrical the electrical sector and prepare them to work safely and competently in in high-voltage environments.

## Audience

This e-learning module is aimed at personnel carrying out simple operations and manoeuvres.

## Objectives of the training

The aim of this distance learning course is to make employees aware of the measures that can be taken to reduce the risks to personnel, installations and information.

On completion of the course, learners will be able to:

- prepare for the BE Manoeuvres / BS / HE certification, in accordance with standard NF C 18-510;
- carry out simple operations, basic LV work or switching or switching operations on electrical installations.

## Programme

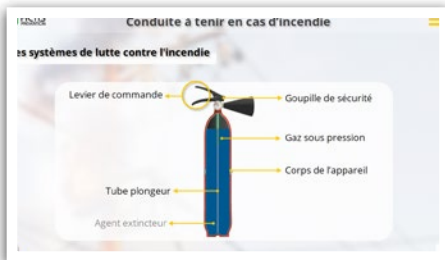

- **In “initial training” mode:** the trainee follows all the chapters and is assessed at the end of the course. At the end of the final assessment of the trainee's knowledge, a course completion certificate is issued.
- **In “refresher” mode:** placement tests are used to automatically provide a course tailored to the trainee's knowledge. The duration of the refresher course varies according to profile.

# Module content

## Part 1: Training

- Chapter 1 - Regulatory and standard context**
- Chapter 2 - Basics of electricity**
- Chapter 3 - Risk analysis related to electricity**
- Chapter 4 - Operations and certification levels**
- Chapter 5 - Electrical hazards prevention**
- Chapter 6 - Fires and accidents caused by electricity**
- Chapter 7 - LV interventions**
- Chapter 8 - Procedures**

**The course is supplemented by a downloadable summary document.**  
**The learner can consult this document whenever necessary.**

## Part 2: Assessment

At the end of the course, the learner is assessed. An analysis of the results obtained enables appropriate corrective measures to be taken where necessary.

## Medium

---

This e-learning module is made up of multimedia animations: TV interview, video, photographs, 2D/3D.

## Usage

---

Train your learners via a distance learning platform.

This e-learning module can be:

- installed on the e-learning platform provided by Fictis Prévention ;
- installed on your e-learning platform.

## Customisation of the module

---

This module can be customised both in terms of content and form, and we can integrate :

- your own specific characteristics: establishment, risks, instructions, etc. ;
- your graphic charter.

## Related products

---

**This product is also available on USB key.**

**Treated subjects by Fictis Prévention:**

- General safety
- Safety management
- Work-life balance
- Fire safety
- Musculoskeletal disorders
- Electrical safety
- Lifting equipment/handling/machinery
- Occupational road risk
- Chemical hazards/CMR/Asbestos
- Psychosocial hazards and quality of work life
- Biological hazards
- Energy conservation / Eco-gestures
- Security
