### Driving is a job in its own right.

However, taking to the road is not without its risks: road accidents on mission account for 25% of fatal accidents at work (source INRS).

Fictis Prévention has developed a self-training e-learning module for your employees on «Road risk prevention».

This module covers journeys made as part of professional missions. The various prevention methods can also be used for everyday journeys.

**Become a Safety Actor.**

## Audience

---

This e-learning module on «Road risk prevention» is designed for :

- sales representatives ;
- technical and maintenance departments ;
- professional drivers ;
- any person exposed to road risk as part of their professional duties or during commuting to and from work.

## Objectives of the training

---

The aim of this distance learning course is to raise awareness and train your staff in road risks.

By the end of the course, learners will be able to :

- identify and become aware of road risks ;
- Know and adopt good habits ;
- change their behaviour at the wheel.

## Training content

---

### Part 1 : Training

**Chapter 1 : Safety distances**

**Chapitre 2 : The maneuvers**

**Chapter 3 : Alcohol consumption, drugs and medication**

**Chapter 4 : Climatic conditions**

**Chapter 5 : Behaviors in an emergency**

**Chapter 6 : Vehicle maintenance and the tires**

**The training module is completed by a summary document that you can download. The learner can consult this document whenever necessary.**

### Part 2 : Assessment

At the end of the course, the learner is assessed. An analysis of the results obtained enables appropriate corrective measures to be taken where necessary. A knowledge positioning test - offered before the course - can also supplement this module.

## Media

---

This e-learning module is made up of multimedia animations: video, photographs, 2D/3D animations.

## Usage

---

Train your learners via a distance learning platform.

This e-learning module can be :

- installed on the e-learning platform provided by Fictis Prévention ;
- installed on your own e-learning platform.

## Customisation of the module

---

This module can be personalised in terms of the content and/or the structure; we can integrate:

- your specific features: establishment, risks, instructions, etc....
- your graphic charter.

## Related products

---
